## DRAFT

## Minutes

Environmental Management Commission Meeting
Alabama Department of Environmental Management Building
1400 Coliseum Boulevard
Montgomery, Alabama 36110-2400
April 21, 2017

Co	mmission Meeting			April 21, 2017
	Page 137			Page 139
1	be notified if there was actually public	1	anybody to do more with less resources	
1	notice. And we talked to the City of	2		
1	Pelham, who was responsible for the	i	petition. I think Casi mentioned it. We	
1	overflow, and what they said was that	1	work closely with the Coosa Riverkeeper,	
	they do want to notify the public but	1	which is two employees. We have two	
1	they didn't know how. And we did; we did	6		
	notify the public and we do know how to	7	recreational access point. We provide,	
	do it. And in a very short period of		you know, adequate public notice. And I	
	time, our, you know, attempt to notify	į.	think that that we have shown that you	
F	the public reached 70,000 people in less	1	can do that with with limited	
11	than eight hours. And there is a very	11	resources.	
12	strong desire for the public to know	12	And then the only other	
13	that.	13		
14	And in your questions, you asked	14	MR. BUTLER: thing I wanted to	
15	you know, you referenced these comments	15	say what's that?	
16	of people that sent in that don't believe	16	CHAIRMAN BROWN: Thank you.	
17	there is a system for public	17	MR. BUTLER: That's it?	
18	notification, and that's the reason why.	18	CHAIRMAN BROWN: Next, David	1
19	When their children have swum you	19	Ludder representing self to address	
20	know, been swimming in water that is	20	Director's criticism at last meeting. Be	
21	contaminated and they were not notified,	21	careful.	
22	that is effectively not a system of	22	MR. LUDDER: Of course. My name	
23	public notification. And in our case,	23	is David Ludder, and I am here on behalf	
	Page 138			Page 140
1	you know, in a state of six million, you	1	of myself. I was unable to attend the	
2	know, however many million people live in	2	last meeting of the Commission; however,	
3	Alabama, I happen to be in the right	3	I did view the videotape of that meeting.	
4	place at the right time with the right	4	I was very disappointed to see the	
5	equipment. And had I not been there that	5	criticism leveled at the environmental	
6	day, nobody would have been notified.	6	community by the Director as well as	
7	There would have been absolutely no	7	leveled at Michael Mullen in particular.	
8	notification. And at that location where	8	Michael Mullen has complained	
9	that waterfall is, on a day like that,	9	repeatedly to ADEM about construction	
10	which was July 22, 2015, literally	10	storm-water sites that are not adequately	
11	hundreds of people play in that water,	11	prepared to control erosion and sediment	
12	and it's inexcusable to us that that	12	deposition in state water. Mr. Mullen is	
13	the operator came to that park and	13	not an amateur at this. He is a	
14	notified nobody. The difference what	14	certified professional in erosion and	
15	we are asking in the petition is that the	15	sediment control, a certification that	
16	difference in his responsibility he	16	under ADEM's regulations authorizes him	
17	was responsible to go to the park, and	17	to design all nonstructural elements of	
18	all we're asking is to hang a sign there.	18	construction of storm water best-	
19	And that's a very small burden on the	19	management plans. He also has a Bachelor	
20	operator.	20	of Science degree in chemistry and	
21	And then the other thing is, you	21	biology, a Master of Science degree in	
22	know, resources. We've heard "resources"	22	chemistry, and a Master of Science degree	
23	come up a lot. And I would challenge	23	in biology. He is the former director of

2 3 4 5 6 7 8 9 10 11 12 13 14	timeliness of return to compliance is not an appropriate way to characterize the effectiveness of ADEM's enforcement program. Therefore, the environmental community has repeatedly asked the Director to collect such data, and the Director has repeatedly refused to do so, preferring instead to rely on the EPA dashboards.  Given the Director's reluctance to collect such data, it is appropriate for the environmental community now to ask the Commission to establish that it is	Page 142	2 3 4 5 6 7 8 9 10 11 12	MR. PHILLIPS: Move we adjourn. DR. MARTIN: Second. CHAIRMAN BROWN: All in favor? (Indicated.)	Page 144
2 3 4 5 6 7 8 9 10 11 12 13 14	timeliness of return to compliance is not an appropriate way to characterize the effectiveness of ADEM's enforcement program. Therefore, the environmental community has repeatedly asked the Director to collect such data, and the Director has repeatedly refused to do so, preferring instead to rely on the EPA dashboards.  Given the Director's reluctance to collect such data, it is appropriate for the environmental community now to ask the Commission to establish that it is the policy of the Department to collect	Page 142	2 3 4 5 6 7 8 9 10 11 12 13	MR. PHILLIPS: Move we adjourn. DR. MARTIN: Second. CHAIRMAN BROWN: All in favor? (Indicated.)	Page 144
2 3 4 5 6 7 8 9 10 11 12 13 14	timeliness of return to compliance is not an appropriate way to characterize the effectiveness of ADEM's enforcement program. Therefore, the environmental community has repeatedly asked the Director to collect such data, and the Director has repeatedly refused to do so, preferring instead to rely on the EPA dashboards.  Given the Director's reluctance to collect such data, it is appropriate for the environmental community now to ask the Commission to establish that it is the policy of the Department to collect and report data on the timeliness of	Page 142	2 3 4 5 6 7 8 9 10 11 12 13 14	MR. PHILLIPS: Move we adjourn. DR. MARTIN: Second. CHAIRMAN BROWN: All in favor? (Indicated.)	Page 144
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	timeliness of return to compliance is not an appropriate way to characterize the effectiveness of ADEM's enforcement program. Therefore, the environmental community has repeatedly asked the Director to collect such data, and the Director has repeatedly refused to do so, preferring instead to rely on the EPA dashboards.  Given the Director's reluctance to collect such data, it is appropriate for the environmental community now to ask the Commission to establish that it is the policy of the Department to collect and report data on the timeliness of enforcement action and the timeliness of	Page 142	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	MR. PHILLIPS: Move we adjourn. DR. MARTIN: Second. CHAIRMAN BROWN: All in favor? (Indicated.)	Page 144
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	timeliness of return to compliance is not an appropriate way to characterize the effectiveness of ADEM's enforcement program. Therefore, the environmental community has repeatedly asked the Director to collect such data, and the Director has repeatedly refused to do so, preferring instead to rely on the EPA dashboards.  Given the Director's reluctance to collect such data, it is appropriate for the environmental community now to ask the Commission to establish that it is the policy of the Department to collect and report data on the timeliness of enforcement action and the timeliness of return to compliance.	Page 142	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	MR. PHILLIPS: Move we adjourn. DR. MARTIN: Second. CHAIRMAN BROWN: All in favor? (Indicated.)	Page 144
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	timeliness of return to compliance is not an appropriate way to characterize the effectiveness of ADEM's enforcement program. Therefore, the environmental community has repeatedly asked the Director to collect such data, and the Director has repeatedly refused to do so, preferring instead to rely on the EPA dashboards.  Given the Director's reluctance to collect such data, it is appropriate for the environmental community now to ask the Commission to establish that it is the policy of the Department to collect and report data on the timeliness of enforcement action and the timeliness of return to compliance.  Finally, I would say that	Page 142	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	MR. PHILLIPS: Move we adjourn. DR. MARTIN: Second. CHAIRMAN BROWN: All in favor? (Indicated.)	Page 144
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	timeliness of return to compliance is not an appropriate way to characterize the effectiveness of ADEM's enforcement program. Therefore, the environmental community has repeatedly asked the Director to collect such data, and the Director has repeatedly refused to do so, preferring instead to rely on the EPA dashboards.  Given the Director's reluctance to collect such data, it is appropriate for the environmental community now to ask the Commission to establish that it is the policy of the Department to collect and report data on the timeliness of enforcement action and the timeliness of return to compliance.  Finally, I would say that  Mr. Mullen's credibility and accuracy has	Page 142	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	MR. PHILLIPS: Move we adjourn. DR. MARTIN: Second. CHAIRMAN BROWN: All in favor? (Indicated.)	Page 144
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	timeliness of return to compliance is not an appropriate way to characterize the effectiveness of ADEM's enforcement program. Therefore, the environmental community has repeatedly asked the Director to collect such data, and the Director has repeatedly refused to do so, preferring instead to rely on the EPA dashboards.  Given the Director's reluctance to collect such data, it is appropriate for the environmental community now to ask the Commission to establish that it is the policy of the Department to collect and report data on the timeliness of enforcement action and the timeliness of return to compliance.  Finally, I would say that Mr. Mullen's credibility and accuracy has been confirmed numerous times by ADEM and	Page 142	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	MR. PHILLIPS: Move we adjourn. DR. MARTIN: Second. CHAIRMAN BROWN: All in favor? (Indicated.)	Page 144
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	timeliness of return to compliance is not an appropriate way to characterize the effectiveness of ADEM's enforcement program. Therefore, the environmental community has repeatedly asked the Director to collect such data, and the Director has repeatedly refused to do so, preferring instead to rely on the EPA dashboards.  Given the Director's reluctance to collect such data, it is appropriate for the environmental community now to ask the Commission to establish that it is the policy of the Department to collect and report data on the timeliness of enforcement action and the timeliness of return to compliance.  Finally, I would say that  Mr. Mullen's credibility and accuracy has	Page 142	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	MR. PHILLIPS: Move we adjourn. DR. MARTIN: Second. CHAIRMAN BROWN: All in favor? (Indicated.)	Page 144
