<u>CERTIFIED MAIL</u> RETURN RECEIPT REQUESTED

Mr. Tim Savage, Superintendent Washington County Board of Education 229 Granade Street Chatom, Alabama 36518

Re: Notice of Violation and Intent to File Suit under the Clean Water Act for Violations of NPDES Permit No. AL0042391 and Consent Order 13-104-CWP

Dear Mr. Savage:

Pursuant to the Clean Water Act § 505, 33 U.S.C. § 1365, and 40 C.F.R. Part 135, Subpart A, you are hereby notified that after the expiration of sixty (60) days following the date of this notice, the Environmental Defense Alliance may file suit against the Washington County Board of Education for discharges of pollutants from the Leroy High School WWTP at 26301 Highway 43 in Leroy, Alabama into an unnamed tributary to Gaines Creek at approximately Latitude 31.50075° N, Longitude 87.97277° W in violation of the Clean Water Act, 33 U.S.C. § 1251 et seq., NPDES Permit No. AL0042391, and Consent Order 13-104-CWP.

I. Violations of NPDES Permit No. AL0042391

Pursuant to § 402 of the Clean Water Act, 33 U.S.C. § 1342, the Alabama Department of Environmental Management issued NPDES Permit No. AL0042391 authorizing the Board to discharge pollutants from the Leroy High School WWTP into an unnamed tributary of Gaines Creek subject to specific discharge limitations. The Board has discharged pollutants from Outfall 0011 into the unnamed tributary of Gaines Creek in violation of the discharge limitations of NPDES Permit No. AL0042391 from August 20, 2009 to June 30, 2014 as described in Tables 1 through 10. Additional violations have likely occurred subsequent to June 30, 2014, but have not been reported to the Alabama Department of Environmental Management yet.

II. Violations of Consent Order 13-104-CWP

On June 7, 2013, the Alabama Department of Environmental Management issued Consent Order 13-104-CWP to the Board. Among other things, the Order required that the Board comply with the discharge limitations for Carbonaceous Biochemical Oxygen Demand (CBOD), Total Residual Chlorine (TRC), Percent Removal of Total Suspended Solids (TSS), Ammonia (as Nitrogen (NH3-N), pH, Dissolved Oxygen (DO), and Total Suspended Solids (TSS) in NPDES Permit No. AL0042391 by September 18, 2013. The Board has discharged pollutants from Outfall 0011 into the unnamed tributary of Gaines Creek in violation of Consent

Order 13-104-CWP from September 18, 2013 to June 30, 2014 as described in Tables 11 through 17. Additional violations have likely occurred subsequent to June 30, 2014, but have not been reported to the Alabama Department of Environmental Management yet.

III. History of Enforcement Actions

On October 16, 2003, the Alabama Department of Environmental Management issued a Notice of Violation to the Board. The Notice alleged violations of discharge limitations in NPDES Permit No. AL0042391 for Ammonia (as Nitrogen) (NH3-N) during the months of April, June and August 2003.

On February 17, 2005, the Alabama Department of Environmental Management issued a Notice of Violation to the Board. The Notice alleged violations of discharge limitations in NPDES Permit No. AL0042391 for Ammonia (as Nitrogen) (NH3-N), pH, Carbonaceous Biochemical Oxygen Demand (CBOD), and Total Suspended Solids (TSS) during the months of August, September and November 2004.

On June 20, 2012, the Alabama Department of Environmental Management issued Consent Order 12-131-CWP to the Board. Among other things, the Order alleged violations of discharge limitations in NPDES Permit No. AL0042391 for Carbonaceous Biochemical Oxygen Demand (CBOD), Total Residual Chlorine (TRC), Percent Removal of Total Suspended Solids (TSS), Ammonia (as Nitrogen (NH3-N), pH, Dissolved Oxygen (DO), Total Suspended Solids (TSS) and Fecal Coliform (FC) during the months of April and June through December, 2010; February, April, and June through December 2011; and February 2012. The Order required the Board to submit an engineering report that addresses the need for changes in maintenance and operating procedures, the need for modification of existing treatment works, the need for new or additional treatment works, and the corrective actions to resolve the deficiencies noted by a recent Department inspection. The Engineering Report was required to include a schedule for implementation (i.e., a Compliance Plan) by June 20, 2013. The Order required that the Board comply with the Permit limitations for CBOD, TRC, Percent Removal of TSS, NH3-N, pH, DO, TSS, and FC by June 20, 2013. The Order assessed no penalties for past violations. The Order required the payment of stipulated penalties for future violations of \$100 (1st through 30th day), \$200 (31st through 60th day) and \$300 (after 60th day), not to exceed an aggregate of \$18,000.

On June 7, 2013, the Alabama Department of Environmental Management issued Consent Order 13-104-CWP to the Board. Among other things, the Order alleged violations of discharge limitations in NPDES Permit No. AL0042391 for Carbonaceous Biochemical Oxygen Demand (CBOD), Total Residual Chlorine (TRC), Percent Removal of Total Suspended Solids (TSS), Ammonia (as Nitrogen (NH3-N), pH, Dissolved Oxygen (DO), Total Suspended Solids (TSS) and Fecal Coliform (FC) during the months of April and June through December, 2010; February, April, and June through December 2011; and February 2012. The Order required the Board to complete implementation of the recommendations provided in the Engineering Report submitted on September 18, 2012 not later than September 18, 2013. The Order required that the

Board comply with the discharge limitations for Carbonaceous Biochemical Oxygen Demand (CBOD), Total Residual Chlorine (TRC), Percent Removal of Total Suspended Solids (TSS), Ammonia (as Nitrogen (NH3-N), pH, Dissolved Oxygen (DO), Total Suspended Solids (TSS), and Fecal Coliform (FC) in NPDES Permit No. AL0042391 by September 18, 2013. The Order assessed no penalties for past violations. The Order required the payment of stipulated penalties for future violations of \$100 (1st through 30th day), \$200 (31st through 60th day) and \$300 (after 60th day), not to exceed an aggregate of \$18,000.

These enforcement actions have not resulted in the Board's compliance with the discharge limitations in NPDES Permit No. AL0042391 and violations continue.

IV. Sanctions

The Court may assess civil penalties of up to \$37,500 per violation. Each day a violation continues is a separate violation. Violations of monthly average limits and weekly average limits are counted as violations for each day of the month and each day of the week, respectively. *See Atlantic States Legal Found., Inc. v. Tyson Foods, Inc.*, 897 F.2d 1128 (11th Cir. 1990). Accordingly, there are 3,983 discharge violations of NPDES Permit No. AL0042391 and 497 discharge violations of Consent Order 13-104-CWP alleged herein. In addition, the Court may award litigation expenses and attorney fees. Suit may be avoided if these violations have been permanently abated before the expiration of sixty (60) days following the date of this notice. Please advise the undersigned of any measures that you may undertake which you contend have permanently abated these violations before suit is filed.

Sincerely,

David A. Ludder

Daniel Chudel

COMPLAINT

The Parties

- 1. The Attorney General is authorized by Ala. Code § 22-22A-5(1), § 22-22-9(m), § 22-22A-5(12), and § 22-22A-5(18) (2006 Rplc. Vol.) to enforce the provisions of the Alabama Water Pollution Control Act (hereinafter "AWPCA"), which is found at Ala. Code §§ 22-22-1 through 22-22-14 (2006 Rplc. Vol.). Specifically, Ala. Code § 22-22A-5(18)b. (2006 Rplc. Vol.) authorizes the Attorney General to bring a civil action for violation of permits issued under the AWPCA and for unpermitted discharges of pollutants in violation of said Act. In addition, Ala. Code § 22-22A-5(18)c. (2006 Rplc. Vol.) authorizes the Attorney General to recover civil penalties for such permit violations and unpermitted discharges of pollutants, providing for a maximum of \$25,000.00 per violation. The Attorney General is authorized by Ala. Code § 36-15-12 (2006 Rplc. Vol.) to institute and prosecute, in the name of the State, all civil actions and other proceedings necessary to protect the rights and interests of the State.
 - 2. The Alabama Department of Environmental Management (hereinafter "the

Department" or "ADEM") is a duly constituted department of the State of Alabama pursuant to Ala. Code §§ 22-22A-1 through 22-22A-16 (2006 Rplc. Vol.). Pursuant to Ala. Code § 22-22A-4(n) (2006 Rplc. Vol.), the Department is the state agency responsible for the promulgation and enforcement of water pollution control regulations in accordance with the Federal Water Pollution Control Act, 33 U.S.C. §§ 1251 to 1387. In addition, the Department is authorized to administer and enforce the provisions of the AWPCA.

3. The Washington County Board of Education (hereinafter "the Permittee") operates a wastewater treatment facility known as the Leroy High School wastewater treatment facility (hereinafter "WWTF"). The WWTF discharges pollutants from Leroy High School located at 26301 Highway 43, Leroy, Washington County, Alabama, into an unnamed tributary to Gaines Creek, a water of the State.

Jurisdiction and Venue

4. The Court has jurisdiction and venue over this Complaint pursuant to <u>Ala. Code</u> § 22-22A-5(18)b. and § 22-22A-5(19) (2006 Rplc. Vol.).

General Allegations

5. Pursuant to the National Pollutant Discharge Elimination System (hereinafter "NPDES") program administered by ADEM and approved by the Administrator of the U.S. Environmental Protection Agency pursuant to § 402 of the Federal Water Pollution Control Act, 33 U.S.C. § 1342, the Department issued NPDES Permit Number AL0042391 (hereinafter "the Permit") to the Permittee. Said Permit was reissued to the Permittee on November 28, 2007, effective December 1, 2007, establishing limitations, terms, and conditions on the discharge of pollutants from a point source designated as Outfall Number 0011 from the Leroy High School WWTF to an unnamed tributary to Bassetts Creek, a water of the State. The Department again

reissued the Permit on September 27, 2012, effective December 1, 2012. With the reissuance, the discharge receiving stream was updated from an unnamed tributary to Bassetts Creek to an unnamed tributary to Gaines Creek, a water of the State. The Permit requires that the Permittee monitor its discharges and submit periodic Discharge Monitoring Reports (hereinafter "DMRs") to the Department describing the results of the monitoring. The Permit also requires that the Permittee maintain in good working order all systems used by the Permittee to achieve compliance with the terms and conditions of the Permit.

- 6. DMRs submitted to the Department by the Permittee indicate that the Permittee has discharged pollutants from the aforementioned point source, Outfall Number 0011, to an unnamed tributary to Gaines Creek in violation of the limitations established in the Permit. The months the violations occurred along with the parameters violated are listed in Attachment 1, which is incorporated by reference as if fully set forth herein.
- 7. Permit Condition I.C.2.b requires that a noncompliance notification report be submitted to the Department should a discharge not comply with any limitation of the permit. Noncompliance notification reports are to be submitted to the Department with the next DMR after becoming aware of the noncompliance. The Permittee failed to submit noncompliance notification reports as described in Attachment 1.
- 8. Permit Condition I.A requires that discharges be limited and monitored as specified in the Permit. The Permittee failed to submit the monitoring data for the parameters listed in Attachment 1.
- 9. Ala. Code §22-22-9(i)(3) (2006 Rplc. Vol.) requires that a permit be obtained prior to discharging any new or increased pollution into any water of the State. The Permittee reported to the Department one unpermitted discharge in the form of a Sanitary Sewer Overflows

(hereinafter "SSO") between July 2009 and July 2014. The SSO is listed in Attachment 1.

- 10. The Department issued Consent Order 12-131-CWP to the Permittee on June 20, 2012 which required the Permittee to comply with the Permit limitations for DO, pH, TSS, NH3-N, TRC, Fecal Coliform (FC), CBOD5, and TSS percent removal no later than June 20, 2013.
- 11. The Department issued Consent Order 13-104-CWP to the Permittee on June 7, 2013. Consent Order 13-104-CWP modified the compliance dates given in Paragraphs F, H, J, and L of Consent Order 12-131-CWP due to the Permittee's indication that additional time would be required to achieve compliance as a result of delayed procurement of equipment for upgrades to the WWTF. Consent Order 13-104-CWP required the Permittee to comply with the Permit limitations for DO, pH, TSS, NH3-N, TRC, FC, CBOD5, and TSS percent removal no later than September 18, 2013.
- 12. The DMRs submitted to the Department since the September 18, 2013 compliance date in Consent Order 13-104-CWP indicate the Permittee has not achieved compliance with DO, pH, NH3-N, TRC, CBOD5, and TSS percent removal.

Count I

- 13. Plaintiffs repeat, replead and incorporate by reference paragraphs 1 through 12, above.
- 14. The above violations are due to be abated by injunction.

Count II

- 15. Plaintiffs repeat, replead and incorporate by reference paragraphs 1 through 14, above.
- 16. Pursuant to <u>Ala. Code</u> § 22-22A-5(18) (2006 Rplc. Vol.), a civil penalty is due to be assessed for the referenced violations.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs respectfully request that the Court:

A. Take jurisdiction over this matter.

B. Adjudge and declare that the Permittee violated the limitations, terms, and

conditions of the Permit.

C. Adjudge and declare that the Permittee caused or allowed discharges of pollutants

from its wastewater treatment facility into a water of the State in violation of the limitations set

forth in the Permit.

D. Order the Permittee to take action to ensure that similar violations of the AWPCA

will not recur in the future.

E. Assess a civil penalty against the Permittee and in favor of Plaintiffs pursuant to

Ala. Code §§ 22-22A-5(18)b. and c. (2006 Rplc. Vol.) for each and every violation of the Permit

alleged in this Complaint.

F. Tax the costs of this action against the Defendant.

G. Order such other relief that the Court deems proper.

Respectfully submitted,

s/ Robert D. Tambling
