Michael T. and Dana Woolf	2030 Mandeville Lane, Foley, AL

On May 31, 1972, the Administrator of the U.S. Environmental Protection Agency approved the "Air Quality Implementation Plan for the State of Alabama," including Section 4.2.2 of the Rules and Regulations of the Alabama Air Pollution Control Commission. 37 Fed. Reg. 10842 (May 31, 1972). Section 4.2.2 was recodified at Ala. Admin. Code r. 335-3-4-.02(2) in 1989. *See* 55 Fed. Reg. 10062 (Mar. 19, 1990). It provides:

**Visible Emissions Restrictions Beyond Lot Line.** No person shall cause or permit the discharge of visible fugitive dust emissions beyond the lot line of the property on which the emissions originate.

The Alabama Department of Environmental Management has neither repealed Ala. Admin. Code r. 335-3-4-.02(2) nor submitted a revision of the State implementation plan to delete Ala. Admin. Code r. 335-3-4-.02(2) from the plan. The Administrator of the U.S. Environmental Protection Agency has not approved a revision of the State implementation plan that does not include Ala. Admin. Code r. 335-3-4-.02(2). Accordingly, Ala. Admin. Code r. 335-3-4-.02(2) is a standard or limitation established under an applicable State implementation plan approved by the Administrator and is in effect under an applicable State implementation plan.

The Creek Indian Enterprises Development Authority, the Public Athletic and Sports Facilities Cooperative District of the City of Foley, Killian Construction Co., and the Public Cultural and Entertainment Facilities Cooperative District of the City of Foley are and have been

engaged in construction activities, including land clearing activities, in an area south and southeast of the Parish Lakes Subdivision in the City of Foley, Alabama. See attached map. These areas have been frequently identified as the Foley Sports Tourism Complex, the Foley Events Center, and Blue Collar Country. These construction activities have resulted in and continue to result in the discharge of visible fugitive dust emissions beyond the lot line of the property on which the emissions originate in violation of the applicable State implementation plan for the State of Alabama, specifically Ala. Admin. Code r. 335-3-4-.02(2). These visible fugitive dust emissions occurred on at least the following dates:

April 3, 2015, April 24, 2015, February 15, 2016, March 7, 2016, March 8, 2016, March 9, 2016, April 6, 2016, April 9, 2016, April 10, 2016, April 11, 2016, April 17, 2016, April 19, 2016, April 20, 2016, April 21, 2016, April 22, 2016, April 25, 2016, April 26, 2016, April 30, 2016, May 1, 2016, May 5, 2016

The Clean Air Act authorizes injunctive relief and civil penalties up to \$37,500 per day per violation. In addition, the Act authorizes the award of costs of litigation (including reasonable attorney and expert witness fees) to any party, whenever the court determines that such an award is appropriate. Suit may be avoided if these violations have ceased before the expiration of 60 days following service of this notice. Please advise the undersigned of any measures which you may undertake which you contend have permanently abated these violations before suit is filed.

Sincerely,

David A. Ludder  
Attorney for above-named individuals
